Planted trees on Phase I

N°	Species	Number of Trees	Phase of Growth
1	Avocado	20	Seedling
2	Ceiba	2	Small tree
3	cacao	10	seedling
4	Cofee	1	Seedling
5	Hevea	2	Small tree
6	guamo	10	Small tree
7	guayaba	7	Small tree
8	higuerón	4	Small tree
9	higuito	7	Small tree
10	laurel	70	seedling
11	Lemon	2	Seedling
12	mango	10	Seedling
13	manzanillo	1	Small tree
14	malambillo	5	Small tree
15	tangarine	2	Small tree
16	naranja	3	Small tree
17	mapurito	10	Small tree
18	palma	45	Seedling
19	pomarrosa	10	Small tree
20	padrote	160	Seedling
21	roble	50	Small tree
22	bombacho	50	Small tree
23	San Matía	15	Small tree
24	Siete cueros	10	Small tree
25	uva	5	seedling
26	yarumo	3	seedling
27	jeganu	6	Small tree

Observation

- On June 8, a count was made and it was found that there are 524 trees in good condition, projected in the first stage 506.

The *La Colina* lot has approximately 5 hectares, in which the first 506 trees have been planted on $\frac{1}{2}$ hectare. With the support of **The Pollination Project**, the maximum of 530 tree seedlings have been planted; we project the possibility of doing the same work in 2018 in two different spaces.

Activity	Date	Number of participants	Leader
Sensitization	May 25 and 26	133	All teachers
Soil preparation	May 27	90	teachers
Bags preparation	May 28	50	Avelino Torres
Sort seedbeds	May 28	5	Luis André Márquez
Collection and transport of seeds.	May 29	6	Roberto Robles
Irrigation	everyday	1	Roberto Robles
Traditional work	May 30	The entire community	Leonardo Mejía Benito Torres
